

ONLINE TESTING IS HERE TO STAY.

Loyalist Exam Services (LES) provides your online or paper exams and charges fees only for the exam services your organization requires. Competitive pricing combined with an innovative and experienced exam processing team ensures that exams provided to your organization become a lot less daunting for both you and your test takers.

5,000 or 500 exams LES requires no minimum number of exams annually.

"The culture here at Tableau embraces risk when it comes to innovation in technology. Our users are visionaries, artists and explorers of data and we require a testing platform that measures those competences. **No existing platform met those needs. LES was already providing some key components and we could see the potential of taking it to the next level.** Together, we built the remaining pieces that led to a secure environment for our intellectual property and the hands-on platform that we needed." *Rebecca Nelson, Senior Certification Program Manager, November 2013*

We helped Tableau achieve their exam goals. How can we help out your organization? LET'S TALK!
